ABOUT ME

Senior Product Designer with 5+ years of experience designing AI-enabled digital products across healthcare, recruitment, finance, and education. Skilled in user research, interaction design, prototyping, and usability evaluation, with a particular interest in **Human-Computer Interaction and human-AI collaboration**. Experienced in translating complex user and technical requirements into accessible, transparent, and evidence-informed product experiences. My work focuses on user agency, explainability, trust, and the responsible integration of AI into real-world contexts.

EDUCATION & TRAINING

01/09/2019 - 01/07/2023

BACHELOR OF SCIENCE IN ACCOUNTING AND FINANCE - INSTITUTE OF MANAGEMENT SCIENCES

Relevant curriculum: Business Research Methods, Inferential Statistics, Introduction to Statistics, Calculus, Organisational Behaviour, Office Management Tools, Computer Applications in Finance, Business Communication, Oral Communication, and Bachelor's Research Thesis.

Field(s) of study: Business, administration and law | **Final grade:** 3.36/4 (German Grade 1.96) | **Level in EQF:** 6 | **Website:** https://imsciences.edu.pk/

01/09/2016 - 01/04/2018

HSSC FACULTY OF SCIENCE - JINNAH COLLEGE FOR WOMEN

Field(s) of study: Health and welfare | **Final grade:** A+ | **Level in EQF:** 4 | **Website:** http://www.uop.edu.pk/departments/?q=Jinnah-College-for-Women

SKILLS

Human–Computer Interaction & UX
User Research | Usability Testing | Design Strategy | User Interface Design: Figma | develop product design | Create Personas, User Journeys, User flows, Diagrams | human computer interaction | software UI design patterns | design prototypes | improve user-friendliness | Product Requirement Document | use methodologies for user-centered design

Programming Skills
HTML | CSS | Python

Tools
Figma | Framer | Miro | Hotjar | UserTesting | Figma Make | Adobe Photoshop | CapCut Video Editor | Canva (Design App) | Adobe Illustrator | Lovable | Claude | Microsoft Office: Word, Excel, Powerpoint, Outlook, OneNote | Jira, ClickUp, Trello

Communication & Professional Skills
Scrum Meetings and Communication | perform copywriting

WORK EXPERIENCE

31/07/2026 - CURRENT - SAUDIA ARABIA (REMOTE)

LEAD PRODUCT DESIGNER CREWNITY

Designing the AI-powered finance workspace for small and medium-sized businesses, with a focus on ease, transparency, accessibility, and user-controlled human-AI interactions.

- Leading the end-to-end design across **conversational onboarding, business setup, finance dashboards, AI-assisted accounting and reporting and the landing page.**
- Defined core finance workflows, user stories and end-to-end journeys for the initial **MVP design**.
- Designed a research-informed conversational UI using progressive disclosure and contextual prompts and produced prototype iterations to evaluate **usability** across traditional and conversational interfaces.
- Translated complex accounting requirements into accessible **workflows** for bookkeeping, compliance, financial controls and month-end operations.
- Created **human-in-the-loop flows** for reviewing, editing, approving, rejecting and tracing AI-generated outputs.
- Established Crewnity's **visual identity, UX writing principles and scalable design system with reusable components** through cross-functional collaboration with finance, product and engineering.

- Collaborated closely with finance experts and stakeholders to validate requirements, refine **product strategy** and prioritise features.

04/09/2024 - 22/05/2026 - DUBAI, UNITED ARAB EMIRATES

SENIOR PRODUCT DESIGNER (REMOTE) VETTIO

- Led end-to-end UX lifecycle for an **AI-powered recruitment platform** , covering discovery, research, prototyping, testing, and delivery
- Conducted qualitative and quantitative user research (interviews, journey mapping, usability testing), improving workflow efficiency by 30%
- Simplified complex recruitment systems into intuitive user flows, reducing cognitive load using HCI principles
- Designed **scalable design systems**, wireframes, and high-fidelity prototypes in Figma for web and mobile platforms
- Collaborated with AI engineers and product teams to translate model outputs into user-centred interfaces
- Implemented WCAG 2.1 **accessibility standards** to improve inclusivity and cross-user accessibility
- Ran **A/B testing** and product analytics reviews to improve engagement and iteration cycles
- Contributed to product positioning and stakeholder presentations aligned with roadmap strategy

Email: contact@vettio.com | **Website:** https://vettio.com/

01/09/2025 - 01/12/2025 - SWEDEN

LEAD PRODUCT DESIGNER AND ADVISOR FLOWNET (SWEDISH GOVERNMENT MEDICAL PLATFORM)

- Designed and delivered the MVP for **Flownet**, a government healthcare platform supporting structured collaboration between specialist physicians and supervisors.
- Translated early-stage requirements into user flows, wireframes, and interactive prototypes for core platform functionality.
- Defined the MVP scope around physician–supervisor communication, clinical case sharing, and review workflows.
- Validated key use cases with stakeholders and established an initial UI system to support consistency, scalability, and future development.

03/06/2024 - 01/09/2024 - DUBAI, UNITED ARAB EMIRATES

DESIGNER (REMOTE) CONCEPT FREAKS

- Developed brand systems aligned with **UX principles** to improve consistency across digital platforms
- Designed **brand identities, digital campaigns,** and **marketing visuals** for real estate and sports clients
- Created **UI-aligned design assets**, improving conversion engagement by **24%** for key clients
- Built **style guides** and **visual identity systems** used across the web and social platforms

11/03/2024 - 01/06/2024 - PESHAWAR, PAKISTAN

PRODUCT DESIGNER APPTEX SOFTWARE SOLUTIONS

- Designed and improved user experiences for a wide range of web and mobile applications, including Skivit (educational platform), AskMed (medical assistance app), Jurised (educational law platform), and various social media and enterprise tools.
- Conducted usability testing and user research, improving usability scores by **15%**
- Created user flows, wireframes, and interactive prototypes in Figma for development handoff
- Developed reusable design systems, improving design efficiency by **20%**
- Worked closely with developers to ensure design-to-code consistency across platforms
- Applied **responsive** and **accessibility standards** for multi-device compatibility

31/01/2021 - 31/01/2022 - PESHAWAR, PAKISTAN

PRODUCT DESIGNER TYUT.PK

- Led **end-to-end product design** for a two-sided tutoring platform connecting students with verified tutors for on-demand sessions
- Designed full user journeys (student + tutor), improving task flow clarity and reducing booking friction by **~25% during beta iterations**
- Conducted user research, persona development, and journey mapping based on **15+ user interviews and usability tests**
- Delivered wireframes, interactive prototypes, and high-fidelity UI designs for web and mobile platforms in Figma
- Collaborated with founders and developers to define and refine core product features aligned with technical feasibility
- Built a **scalable design system** with reusable components, improving design consistency and reducing iteration time by **~20%**
- Supported product validation during beta phase, iterating based on **continuous user feedback cycles (weekly testing rounds)**

PROJECTS

01/01/2026 - 01/04/2026

CYSTERCARE (AI-POWERED LIFELONG PCOS CARE PLATFORM)

Service Design Lead

- Led the user-centred design of an **AI-powered healthcare platform supporting PCOS symptom assessment, personalised care, and lifelong disease management**
- Conducted **user research** through patient interviews and expert interviews with endocrinologists, gynaecologists, dermatologists, nutritionists, and mental health professionals to investigate user behaviours, care pathways, and unmet clinical needs.

- Applied qualitative research methods to identify usability challenges, including **cognitive overload, fragmented healthcare journeys, low trust in online medical information, and emotional vulnerability**
- Designed AI-mediated interactions that translated complex health data into transparent, interpretable, and cognitively manageable user experiences.
- Developed interaction flows for personalised symptom tracking, specialist referrals, continuous care planning, and a community-driven support ecosystem.
- Iteratively refined **prototypes** through **usability testing** to improve accessibility, trust, and long-term engagement in a sensitive healthcare context.

CERTIFICATIONS

GOOGLE FOUNDATIONS OF USER EXPERIENCE (UX) DESIGN

WEB PAGE DESIGN USING HTML5 AND CSS3

PRACTICAL PYTHON PROGRAMMING FOR BEGINNERS

VOLUNTEERING

01/12/2022 - 01/10/2023

LINCOLN CORNER ***(CREATIVE STUDIO LEAD)***

- Represented the U.S. Embassy Lincoln Corner initiative as a "Friends of Corner" volunteer
- Planned and executed workshops in **STEM**, **programming, AI, digital literacy, design thinking, and women's empowerment**
- Engaged **1,500+** participants across events and outreach programs

01/08/2021 - 01/07/2022

GOOGLE DEVELOPER STUDENT CLUB ***(LEAD)***

- Directed a multidisciplinary core team (design, development, marketing) and delivered **10+ workshops** and **technical events covering AI, python, UI/UX design, web development, Android, Firebase, and cloud technologies**
- Managed large-scale community initiatives, including **GDSC DevFest, Women in Tech Week, and Google Hackathon**, engaging 300+ participants per major event
- Mentored **15+** student teams during **Google Solution Challenge** 2022, applying design thinking and UX research to prototype solutions aligned with UN SDGs

01/12/2020 - 01/08/2021

MICROSOFT LEARN STUDENT AMBASSADOR ***(DESIGN LEAD)***

- Organised and supported technical workshops on **AI, cloud technologies, and software development.**
- Fostered peer learning by connecting students with technical resources, mentors, and hands-on learning opportunities.
- Encouraged student participation in **hackathons, innovation challenges, and community-driven technology initiatives.**
- Collected participant feedback to improve event experiences and increase community engagement.

LANGUAGE SKILLS

Mother tongue(s): **URDU**

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	C2	C2	C1

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user
